

BIKEBOT

CAPACITY

UP TO 2

The BikeBot rack stands ready to hold two bikes and provides ample area of contact with bikes to support them. The bikes are held apart so there is minimal interference with each other's handlebars and pedals. Provides ample area of contact with bikes to give excellent support. The angle of the BikeBot is consistent with the down tube on the bike making it easy to lock the bike frame and front wheel with a standard U-lock.

The BikeBot bike rack works great and looks great in any location. Available with either surface mount or in-ground mounting option.

MOUNTING OPTIONS

SURFACE
