

The Yield bike rack makes for easy parking of two bikes. It provides a large surface area for contact and support of the bikes. The sides of the Yield rack are angled to align with the down tube of the bike allowing easy lock up of the frame and front wheel with a U-lock. The Yield bike rack is a great alternative to the U-rack.

Available with either surface mount or in-ground mounting options.

Dimensions

Dimensions are for reference only. Stainless steel version dimensions vary slightly.

Surface Mount	3D Model
<p>Use 1/4" concrete anchors with washers</p> <p>Concrete footing</p> <p>Inground portion is smaller diameter</p>	<p>Yield Bike Rack 2 Bikes, Surface Mount, Polyester Powder Coat Black Hammer</p>
